To Our Shareholders

We are pleased to present our report for the 110th business term (from January 1, 2010 to December 31, 2010).

Although there remain concerns about financial instability and severe employment conditions, the global economy during the current business term, with the help of stimulus measures in each country, saw a gradual trend of recovery from the worst of the deep global recession.

Under the unprecedentedly severe business conditions of two years ago, the Canon Group focused on improving our management stability and minimizing damage to its business results, while also maintaining its sound and strong financial condition and laying the groundwork for renewed challenges toward growth and expansion. Designating 2010, the final year of Phase III (2006 to 2010) of our “Excellent Global Corporation Plan,” as the year of the renewed challenges – the first year in a new era of growth – the Canon Group undertook various measures in development, production and sales in each field to reverse the tide in an offensive and made concerted efforts together to improve results and expand businesses.

As a result, we managed to improve our business performance significantly faster than the market’s recovery as a whole, and increased sales and profits exceeding our initial forecasts, despite the abrupt appreciation of the yen in the second half of the year.

Regarding the dividend, we will propose a term-end dividend of 65.00 yen per share at the Ordinary General Meeting of Shareholders for the 110th Business Term. This is in appreciation for the ongoing support of our shareholders and reflects the realization of stable and affirmative returns. Combined with the interim dividend (55.00 yen per share), dividends for the year will be 120.00 yen per share, an increase of 10.00 yen per share compared to the 109th business term.

Although economic conditions for the Canon Group are expected to continue to improve modestly for a while, we expect that they will continue to require ongoing vigilance. We aim to bring all of our capabilities to further improve our business results.

We look forward to your continued support and encouragement.

March, 2011

FUJIO MITARAI
Chairman & CEO

TSUNEJI UCHIDA
President & COO

BUSINESS REPORT

(From January 1, 2010 to December 31, 2010)

1. Current Conditions of the Canon Group

(1) Business Progress and Results

■ General Business Conditions

During the current business term, the global economy in general followed a course of mild recovery, led in particular by emerging economies such as China and India.

The U.S. economy improved gradually with the help of stimulus measures in spite of a persistently high unemployment rate and other negative factors.

In Europe, while fiscal crises emerged in some countries and concerns about financial and employment conditions remained, economies, on the whole, began to recover.

Asia, in which economies generally improved, China's economy quickly recovered as a result of large-scale stimulus measures and other factors, and India's economy trended higher mainly on domestic demand.

Meanwhile, economic conditions in Japan gradually brightened during the term, but, with effects from ongoing deflation, slowing exports and the like, the term ended in a state approaching stagnation.

In foreign exchange markets, the yen gained further against both the U.S. dollar and the euro, compared to last year, and there was an unexpected rapid appreciation in the second half as it briefly hit the 80-yen range against the U.S. dollar.

As for markets in which the Canon Group competes, conditions for office-use products were characterized by a steady recovery in demand for network digital multifunctional devices and copying machines, continuing improvement in demand for laser printers, and an upturn in demand for large-format printers.

Among markets for consumer products, demand for digital single lens reflex cameras (SLRs) grew steadily in all regions. Demand for compact digital cameras struggled in the leading industrialized countries, but posted solid gains in emerging countries. And demand for inkjet printers continued to expand at a solid pace.

Meanwhile, demand for both semiconductor lithography equipment and LCD lithography equipment took an upward turn on proactive capital investment by semiconductor and LCD panel manufacturers.

Under such business conditions, the Canon Group, having designated 2010 the final year of Phase III (2006 to 2010) of our "Excellent Global Corporation Plan," as the first year in a new era of growth, proactively undertook various measures to pursue the basic direction of transitioning to a new growth path to achieve a new performance record in 2012, surpassing existing records set in 2007.

To begin with, we made full efforts to introduce groundbreaking, innovative products and services to improve our competitiveness. These included new lineup of the "imageRUNNER ADVANCE series" and high-performance / environmentally friendly laser printers for use in offices, and video functionality installed SLRs "EOS series" and completely redesigned inkjet printers with intuitive operability for consumers.

We worked to expand our sales organization in Asia starting with China,

which has been steadily growing to play a leading part in the global economy, and this helped us to greatly increase sales, especially in the area of digital cameras and other consumer products.

We also endeavored to maximize synergies by developing ties between regional sales companies and Océ N.V. of the Netherlands, which became a consolidated subsidiary in March. At the same time, we emphasized customer-centric solutions, mainly in Europe and the U.S., in reinforcing our business machine operations.

The field of medical equipment is an expecting new business area for us, and there we introduced new digital radiography cameras with wireless and video functionality, and expanded our operations for ophthalmic devices segment by acquiring OPTOPOL Technology S.A., a Polish company with strong OCT (Optical Coherence Tomography) product offerings.

In addition we took steps to both strengthen the advanced technologies that will support the next generation of existing businesses and enhance key technologies for new business domains. Here, we produced steady results, including the development of CMOS sensors with an ultra-high pixel density capable of capturing details invisible to the naked eye. We showcased some of our achievements at "Canon EXPO" events held in New York, Paris, and Tokyo from September through November, where we also introduced our future vision with our imaging technology and products. Many who attended these events expressed praise and high expectations for that vision.

In addition, to the steps discussed so far, we also strove to further improve the quality of our management.

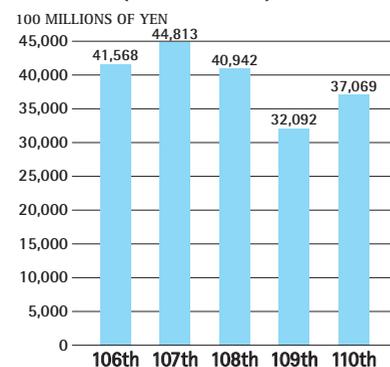

We began by accelerating cost reduction activities to help ensure the high profitability the company needs for sustained growth, and saw significant improvements.

Next, we moved to optimize our supply chain structure and production operations. Regarding our supply chain, we cut production lead time and further reduced inventories through, for example, the standardization of production management using IT systems. Meanwhile, to optimize our production operations, we established Nagasaki Canon Inc., which is the latest factory to manufacture our cameras, and also started the concept of "production within the region of consumption" at Canon Virginia Inc. in the U.S., which is now handling the production, sales, recovery, and recycling of toner cartridges all within the areas in which these products are consumed, to optimize costs and distribution inventories.

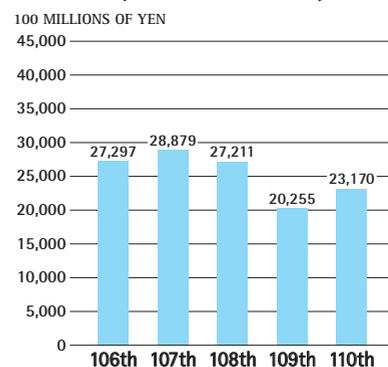

Adding to the above, as part of our "quality first" efforts to do everything possible to boost quality, we took further steps to eliminate all product quality problems.

As a result of the vigorously implemented initiatives mentioned above, the Canon Group managed to restore growth in both sales and income, in complete contrast with the previous term, despite severe yen appreciation in the second half of the term. We recorded net sales of 3,706.9 billion yen (up 15.5% from the previous term), income before income taxes of 392.9 billion yen (up 79.1%), and net income attributable to Canon Inc. of 246.6 billion yen (up 87.3%), all on a consolidated basis. On a non-consolidated basis, we recorded net sales of 2,317.0 billion yen (up 14.4%), ordinary profit of 274.7 billion yen (up 92.6%), and net income of 152.5 billion yen (up 88.8%).

Total	23,170	14.4

Note: The consolidated sales of each business unit includes the amount of intersegment sales.

● Office Business Unit

In this unit, we worked to expand sales of office network digital multifunction devices, concentrating on the new-generation “imageRUNNER ADVANCE series,” which links to a wide range of software to respond to a broad array of document-related user needs. While expanding the product line by introducing the compact “imageRUNNER ADVANCE C2030/2020,” we also focused on strengthening our solution business built around the “imageRUNNER ADVANCE series.” Through these efforts, we accomplished solid recovery in unit sales of office network digital multifunction devices in all regions. Even in the U.S. market, where a hard sales environment has persisted, restructuring our sales operations, strengthening our ties with Hewlett-Packard Development Company LP, and other steps helped to extend unit sales well beyond the previous term’s result. And our sales in Asian markets were all either recovering or showing positive growth, with strong results in particular for low-price products in the growing Chinese market.

In the market for digital production printers, which has yet to recover from the depression of the printing market, we introduced and worked to develop sales for the “imageRUNNER ADVANCE 8000PRO series,” a space-saving, high-speed black-and-white machine, and the highly productive “imagePRESS C7010VP,” which offers prints with image quality approaching that of offset printing. In the U.S., unit sales for the “imageRUNNER ADVANCE C9000PRO series” was strong and greatly exceeded the previous term’s result. And Océ N.V. worked to increase sales of its high-speed, continuous feed “JetStream series” and “VarioStream series” printers. Océ N.V. also announced the launch of its new color inkjet, continuous feed “ColorStream 3500” at “Canon EXPO Tokyo 2010” held in November.

As for multifunction devices for individuals and small and mid-sized business owners, we introduced 10 new products, including the “Satera MF4580dn,” an A4 black-and-white laser multifunction device offering greater user friendliness and both output of up to 25 pages per minute and low power consumption. Sales expansion efforts for new and existing products resulted in significant sales increases in terms of both units and revenues. Results were particularly good in Europe and Asia, while we maintained sales in the declining Japanese market at the previous term’s level.

Regarding laser printers, the rapid recovery in orders for OEM-brand products from customers following the economic recovery beginning in the second half of the previous term continued through the term reported on here, producing a significant jump in unit sales. Unit sales of Canon-brand products far outpaced the previous term’s results in the U.S., Europe, and Asia. In Japan, we launched three machines including the A3 black-and-white “Satera LBP8630” made with environmentally friendly materials and emphasizing output speed and greater user friendliness in January, and two machines including the A4 black-and-white “Satera LBP6700” in October. We achieved higher unit sales due partly to securing large agreement.

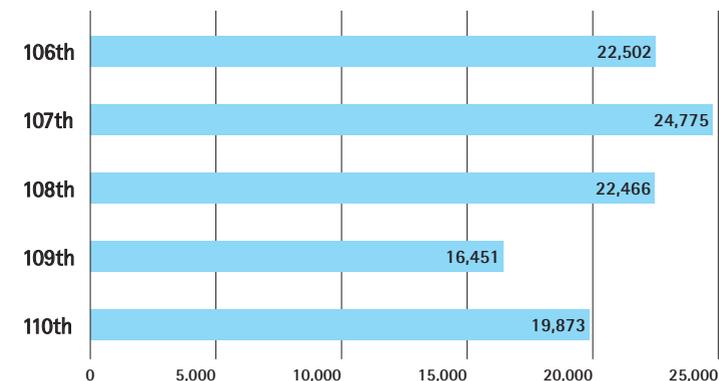

For our “imagePROGRAF series” of large-format inkjet printers, we introduced the new “iPF8300/6350/6300,” which uses a newly developed high-accuracy mechanical structure and “LUCIA EX,” a new pigment ink system, and other breakthrough technologies to respond to demands for extremely high quality among professional users. Efforts to promote sales of not only new products but existing products, as well, resulted in year-on-year increases in unit sales and unit sales shares in the U.S., Europe, and Asia. Specifically, unit sales increased particularly in the rapidly growing Chinese market, and we gained the top market share for Canon in the domestic market.

Sales for this business unit increased by 20.8% on a consolidated basis, partly due to the contribution of sales by consolidating Océ N.V., and by 16.0% on a non-consolidated basis, both in comparison to the previous term.

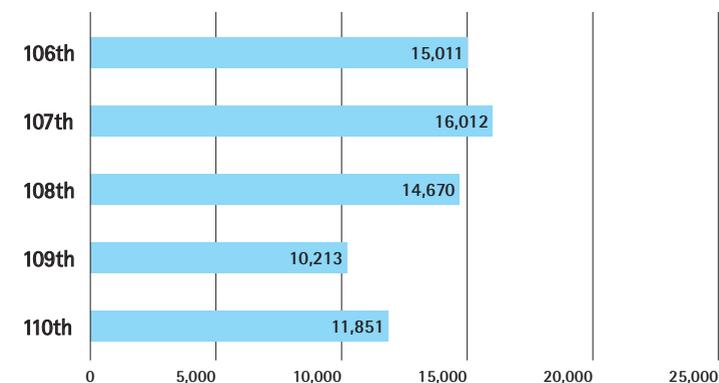

Change in Sales

100 MILLIONS OF YEN

Consolidated

Non-Consolidated

● Consumer Business Unit

The market for digital SLR cameras grew even more strongly than in the previous term, with particularly notable expansion in Asia. Within that environment, we released the “EOS 60D,” an advanced amateur model with greatly enhanced basic functionality. This is the first “EOS series” camera featuring a Vari-angle Clear View LCD monitor. We also introduced the “EOS Kiss X4,” equipped with a high-resolution CMOS sensor and full HD video functionality, as an entry model. These new product introductions combined with efforts to promote sales of the “EOS 5D Mark II” and “EOS 7D,” both of which have developed strong market reception since their introduction in previous terms, produced large increases in SLR unit sales and allowed Canon to maintain its high market share in monetary terms. At the same time, market growth for interchangeable lenses greatly surpassed that of camera bodies, reaching the highest level ever. Against that backdrop, sales of our new “EF70-200mm F2.8L IS II USM” and other “EF lenses” performed very well, as the strategy of selling kits including camera bodies and lenses greatly increased unit sales. In August, we appealed Canon’s technical power by announcing the release of six new lenses including a revolutionary fisheye zoom lens, and the development of two new telephoto lenses.

In the compact digital camera segment, we launched five new “IXY series,” including the “IXY 10S,” the “IXY 200F,” and the “IXY 50S,” which is equipped with full HD video functionality, an extremely thin 10x optical zoom lens and the “HS SYSTEM” for beautiful shots even in dark places. For the “PowerShot series,” we introduced seven new models, including the flagship “PowerShot G12,” the “PowerShot SX210 IS,” together with the “PowerShot SX30 IS,” equipped with a 35x optical zoom lens. Sales of these new products increased our unit sales results, allowing us to maintain our unit sales share.

The digital video camera market, in the meantime, has been shrinking on an overall basis, particularly in Europe and the U.S. due to factors like the enhancement of video functionality in mobile phones and digital cameras. However, the HD sector has continued to expand. Responding to that demand, our introductions of new products like the “iVIX HF M32” equipped with a large 64GB of internal flash memory for longer-hour full HD video recording greatly increased our HD product unit sales with especially dramatic results in China.

Turning to broadcast lenses, weak demand in Japan was outweighed by growing demand in Europe, Asia, and emerging countries, which produced a solid rise in unit sales. Contributing to this increase was the “HJ15x8.5B KRSE-V,” which has won a strong market reception since its release in May as the world’s first portable HD zoom lens with built-in image stabilization, a revolutionary feature for this product class. In addition, the reliability of our “XJ86x9.3B” lens launched in 2000 was once again demonstrated as it was used in large numbers by South African public broadcasting stations to cover the Soccer World Cup held in South Africa.

Sales of inkjet printers have continued to perform well, logging unit increases even after the global financial crisis and for the term under review, as well. Sales results were strong in China and other parts of Asia, while sales of business-use multifunction devices capable of high output and sales of medium- and premium-level devices rose in the U.S. and other leading industrialized countries. Rising printer sales have also resulted in rapid increases in sales of related consumables. We renewed our lines of upper-level single function printers and multifunction devices by introducing the “PIXUS MX870” and “PIXUS MX350” for home office users, and the “PIXUS iP2700,” an entry model single function printer, in the first half, and the “PIXUS MG8130” and “PIXUS MG6130,” both of which are equipped with the “Intelligent Touch System” optical navigation feature, in the second half. Praised for their more refined designs, full HD video print functions, and broad array of other features, these printers are continuing to post strong sales results.

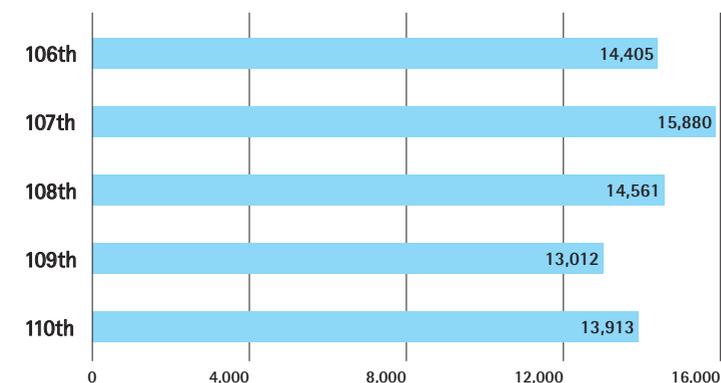

In the image scanner market, which is on a declining trend, we launched the flagship “CanoScan 9000F” and “CanoScan LiDE 210,” boosting our unit sales and solidifying our unit sales share.

Sales for this business unit increased by 6.9% on a consolidated basis and by 7.8% on a non-consolidated basis, both in comparison to the previous term.

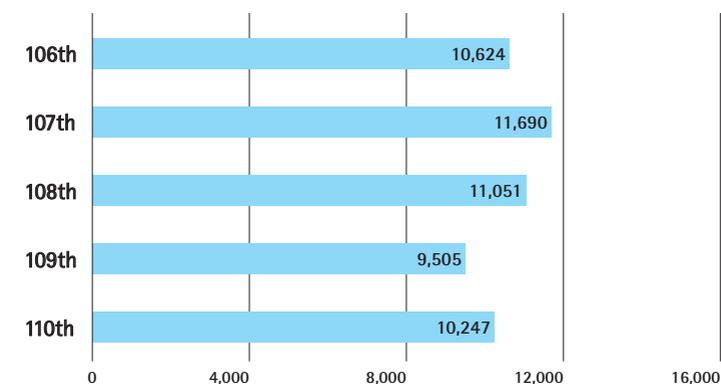

Change in Sales

100 MILLIONS OF YEN

Consolidated

Non-Consolidated

● Industry and Others Business Unit

Conditions in the semiconductor market improved rapidly, leading South Korean and other semiconductor manufacturers to expand their investments in production equipment and driving up our sales of semiconductor lithography equipment in terms of both units and revenues.

Sales of LCD lithography equipment also rose in terms of units and revenues as LCD panel manufacturers in South Korea, China, and other locations actively pursued capital investments. The “MPAsp-H700 series” gained an overwhelming share of the South Korean market as an 8th-generation device offering benefits like outstanding productivity, and contributed to higher sales in the process.

In medical equipment, we for the first time adopted wireless technology for our digital radiography systems, and introduced the high-resolution, high-sensitivity “CXDI-70C Wireless”, which can be used in existing analog imaging equipment because of its use of the same dimensions as the film cassettes traditionally used for those systems. Efforts to promote sales of both this product and the mainstay “CXDI-50 series” resulted in strong sales performance in the U.S. and Asia.

On the other hand, efforts to boost sales of ophthalmic devices, including initiatives like the launch of the extremely compact “CR-2” non-mydratic digital retinal camera equipped with a specialized digital SLR camera could not overcome factors like depressed domestic demand, and ultimately failed to lift sales. Sales of the “CX-1” mydratic/non-mydratic hybrid digital retinal camera released in the previous business term, however, still managed to eke out a steady increase.

Among the “imageFORMULA series” document scanners handled by Canon Electronics Inc., the high-durability, high-speed “DR-9050C/6050C,” compact “DR-2010C/2510C” and new “ScanFront 300P,” with network functionality, all met with strong market receptions, chalking up increases in units sold and revenues in every region where they are marketed. Sales have been particularly strong in China, India, and other parts of Asia, with significant increases in terms of both units and revenues. Meanwhile, in the Japanese market, strong sales of the extremely compact and portable document scanner “DR-150” have led a major increase in unit sales.

Sales of calculators handled by Canon Electronic Business Machines (H.K.) Co. Ltd. achieved unit and revenue gains outpacing the recovering market, partly through the development of new sales channels. Sales of electronic dictionaries handled by the same company marked steady unit gains, as new low-priced models performed well in the face of demand falling with the emergence of smartphones and e-book readers.

Sales of the FA system-related devices handled by Canon Machinery Inc. ended the term with a year-on-year increase as solid first-half results outweighed sales declines in the second half. Die bonders had promising orders for the LED (light-emitting diode) compatible “BESTEM-DO1 series,” helped in particular by vigorous first-half capital investments by LED manufacturers. It enjoyed significantly higher sales for the term, despite lower orders in the second half.

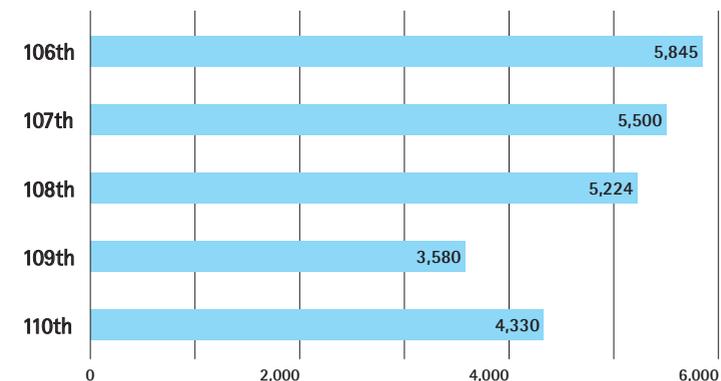

The magnetic disk manufacturing equipment handled by Canon ANELVA Corporation saw sales revenues more than double from the previous term as demand for hard disk drives to be used in servers and personal computers rose and customers increased capital investments. Sales of magnetic heads manufacturing equipment and semiconductor film deposition equipment also rose significantly.

Sales for this business unit increased by 20.9% on a consolidated basis and by 99.7% on a non-consolidated basis, both in comparison to the previous term.

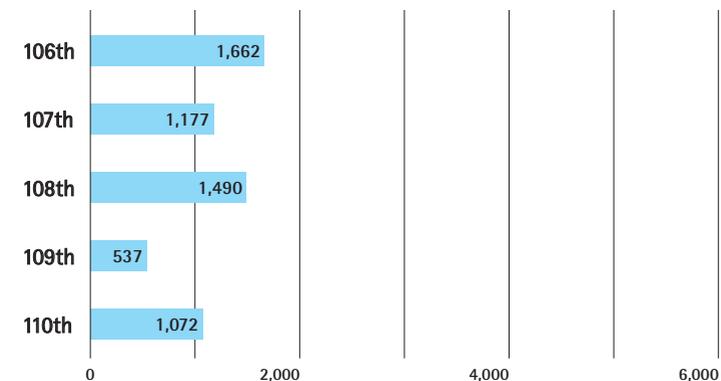

Change in Sales

100 MILLIONS OF YEN

Consolidated

Non-Consolidated

(2) Facilities Investment

The investment in facilities during this term totaled 159.0 billion yen (63.5 billion yen by the Company), which are mainly as follows:

Main facilities completed during this term

- Nagasaki Canon Inc.: New Administration and Welfare Building / New Production Base (Consumer Business Unit)
Location: Hasami-cho, Higashisonogi-gun, Nagasaki Pref.
Date of Completion: February, 2010
*Leased to Nagasaki Canon Inc. by the Company
- Toride Office of the Company: New Production Base (Office Business Unit)
Location: Toride-shi, Ibaraki Pref.
Date of Completion: December, 2010
- Canon Virginia, Inc.: Automated Cartridge Manufacturing Building (Office Business Unit)
Location: Virginia, U.S.A.
Date of Completion: March, 2010

Main facilities under construction for establishment/expansion as of the end of this term

- Kawasaki Office of the Company: New R & D Building (Headquarters Operations)
Location: Kawasaki-shi, Kanagawa Pref.
- Hita Canon Materials Inc.: New Administration and Welfare Building / New Production Base (Office Business Unit)
Location: Hita-shi, Oita Pref.
*To be leased to Hita Canon Materials Inc. by the Company
- Oita Canon Materials Inc.: New Production Base (Office Business Unit)
Location: Oita-shi, Oita Pref.
*To be leased to Oita Canon Materials Inc. by the Company
- Canon Hi-Tech (Thailand) Ltd.: Land / New Production Base (Consumer Business Unit)
Location: Nakhon Ratchasima Province, Thailand
- Canon Chemicals Inc.: New Production Base (Office Business Unit)
Location: Kasama-shi, Ibaraki Pref.
*To be leased to Canon Chemicals Inc. by the Company

(3) Management Perspectives

Looking at prospects for the global economy, the U.S. is likely to continue to recover at a mild pace, despite the risk of economic stagnation due to factors like credit contraction and ongoing high unemployment, and Europe is seen as continuing its gradual recovery even amid concerns of an economic slump from persistent financial instability and other problems.

In Asia, solid economic expansion in China, India, and other countries is driving an overall recovery, with the picture of these emerging countries leading the world economy seemingly becoming even clearer day by day.

With the gradual recovery in global economic conditions, Japan's economy has entered a mild recovery trend, but deflation is expected to remain a problem over the foreseeable future due to weak domestic demand.

It is within that context that the Canon Group has embarked upon its new five-year plan, Phase IV (2011- 2015) of our "Excellent Global Corporation Plan." Under the slogan, "Aiming for the Summit -Speed & Sound Growth -," our Phase IV goals are to place ourselves among the world's top 100 companies for all major management indicators, and achieve net sales of at least 5 trillion yen, an operating profit margin of at least 20%, a net profit margin of at least 10%, and an equity ratio of at least 75% by 2015, the final year of the plan.

Toward that end, we will further strengthen our imaging-related operations, and aim to develop medical and industrial equipment into a new core business segment, expanding the range of our business domains in an effort to effect significant transformations of our scale and business activities. At the same time, we will restructure our R&D, production, and sales functions – all of which are fundamental to manufacturing – to better match the needs of the time. In particular, we will seek to take advantage of outstanding minds and innovation capabilities throughout the world and accelerate our transition to a global tri-polar R&D organization with facilities in Japan, the U.S., and Europe. We will also transform ourselves into a department where products manufactured in various parts of the world are sold globally.

Active pursuit of M&A will be a part of our efforts to bring about the transformations and reforms mentioned above. And so, on January 1, 2011, we established an organization dedicated solely to advancing our M&A activities.

Turning to global environmental initiatives, we will work to further improve the environmental performance of our products and lower environmental burden through all of our business activities in an effort to establish a foundation as a company that is in the lead on the environment – one that values both business growth and environmental protection.

In 2011, the initial year of Phase IV, we will take steps under the theme of "having the courage to change and taking the offensive" to realize the basic

goal of ensuring that our 2012 results will exceed current records, which were set in 2007.

Our first priority will be to continuously introduce innovative products and services. We will thoroughly strengthen existing core businesses through the timely market introductions of the revolutionary product groups displayed at last year's "Canon EXPO" events. We will accelerate joint development with Océ N.V. to enhance our product line in the office business unit, and focus on matters like strengthening single lens movie cameras in the consumer business unit. In the display business, we will move expeditiously to revamp our strategies for developing new opportunities with high-definition, high-resolution displays that are specialized for use in medical field as well as organic EL displays and other products.

Our next priority will be to enhance our global sales capabilities. As well as strengthening our sales organization in China, we will develop markets in Southeast Asia and India, for achieving even greater results in Asia, which is accounting for greater and greater percentages of our sales year by year. In the leading industrialized nations, attention will be focused in particular on accelerating the integration of Océ N.V. for not only selling products through Océ N.V.'s sales network but also strengthening the solution business.

We will strive to further improve gross profit by focusing on costs. And in that light, we will finalize the innovation roadmap for realizing what our production system should look like from an overall perspective encompassing aspects like distribution, procurement, workforce, and country risk, and use that roadmap to accelerate activities aimed at establishing the world's optimal production system. In addition to using computer simulation to speed new product development and lower costs, we will also move forward with production automation and in-house manufacturing of production equipment. In our Japanese production facilities, we have placed automation equipment and measuring devices between cell production teams to implement man-machine cells, which are more productive than traditional cells. This is an example for our efforts to promote reforms aimed at establishing an advanced manufacturing business model.

On another front, we are moving forward with "global diversification" under which we will position innovation creation centers in three parts of the world and take other steps in speeding the establishment of new core businesses. We will enhance our product line in the field of medical equipment, focusing on digital radiography systems, and swiftly develop concrete plans for expanding the industrial equipment business and establishing full-scale R&D functions in the U.S. and Europe.

In addition, with the perfection of an integrated system enabling genuine sharing and application of product design information throughout the company, we will now take full advantage of this system to improve the efficiency of product development and achieve significant quality

improvements.

Acknowledging that quality is the lifeline of the manufacturing industry, we are committed to doing everything possible to implement the "quality first" ideal.

Aiming for the Canon Group to further evolve and become a truly excellent global company that continues to develop and prosper in perpetuity, we will strive to cultivate people who can fully exercise their capabilities anywhere in the world and pour even greater effort into meeting our CSR (corporate social responsibilities).

(8) Acquisition of Shares of Other Company

- Canon acquired shares of OPTOPOL Technology S.A. ("OPTOPOL") of Poland through a tender offer, making OPTOPOL a consolidated subsidiary on February 19, 2010. This was in an effort to construct a strong complementary relationship related to ophthalmic devices and utilize OPTOPOL's technological strengths with the aim of achieving the world's No.1 position within the overall ophthalmic diagnostic devices segment.
- Canon acquired shares of Océ N.V. ("Océ") of the Netherlands in the market or through a tender offer, making Océ a consolidated subsidiary on March 9, 2010. This was in an effort to realize tremendous synergies such as the construction of a strong complementary relationship with respect to product mix and technology, the strengthening of global research and development, and the acquisition of a sales and services network and excellent customers. Through such synergies, Canon aims to achieve the world's No. 1 position within the printing industry.
- Canon made Canon Finetech Inc. ("Canon Finetech") a wholly owned subsidiary on May 1, 2010 through a share exchange. This was in an effort to facilitate the organic integration of management resources between both companies and further enhance the synergies throughout the Canon Group to promote speed of management and solidify our position in the office equipment segment.

- (4) Canon Marketing Japan Inc. (“Canon MJ”) made Canon Software Inc. (“Canon Software”) a wholly owned subsidiary on May 1, 2010 through a share exchange. This was in an effort to further fortify and streamline our consolidated business base and accelerate the making of the IT solutions business of Canon MJ into a core business.
- (5) Canon Electronics Inc. (“Canon Electronics”) made E-System Corporation (“E-System”) a wholly owned subsidiary on May 1, 2010 through a share exchange. This was in an effort to unify the two companies in order to accelerate the decision-making process of management and further strengthen the solutions business in the Canon Electronics Group.
- (6) Canon made Canon Machinery Inc. (“Canon Machinery”) a wholly owned subsidiary on October 1, 2010 through a share exchange. This was in an effort to accelerate the decision-making process of management and improve the organization so as to achieve a quicker roll-out of the Group’s key strategy of automated, unmanned production and realize the early launch of the intelligent-production robot business, which is a next-generation business domain.
- (7) Canon made Tokki Corporation (“Tokki”) a wholly owned subsidiary on October 1, 2010 through a share exchange. This was in an effort to accelerate the decision-making process of management and further enhance the synergies throughout the Canon Group with the aim of accelerating the development and expansion of businesses that utilize Tokki’s advanced technology related to organic EL and solar battery manufacturing equipment.

(9) Principal Subsidiaries

■ Subsidiaries

Company Name	Capital Stock (millions of yen)	Ratio of Voting Rights of the Company (%)	Main Activities
Canon Marketing Japan Inc.	73,303	55.3	Domestic sale of business machines, cameras, etc.
Canon Electronics Inc.	4,969	53.6	Manufacture and sale of information related equipment and precision machinery units for cameras
Oita Canon Inc.	80	100.0	Manufacture of cameras
Canon U.S.A., Inc.	204,355 thousands of U.S.\$	100.0	Sale of business machines, cameras, etc. in the Americas
Canon Europa N.V.	290,600 thousands of Euro	100.0	Sale of business machines, cameras, etc. in Europe

Note: The ratio of the Company’s voting rights in Canon Marketing Japan Inc. is calculated together with the number of voting rights held by subsidiaries.

■ Consolidated Status

The number of consolidated subsidiaries was 294, and the number of affiliated companies accounted for by the equity method was 14.

2. Shares of the Company

Number of Shares Issuable 3,000,000,000 shares

Issued Shares, Capital Stock and Number of Shareholders

	As of the end of the Previous Term	Change during This Term	As of the end of This Term
Issued Shares (share)	1,333,763,464	0	1,333,763,464
Capital Stock (yen)	174,761,797,475	0	174,761,797,475
Number of Shareholders (person)	169,172	Increase of 11,366	180,538

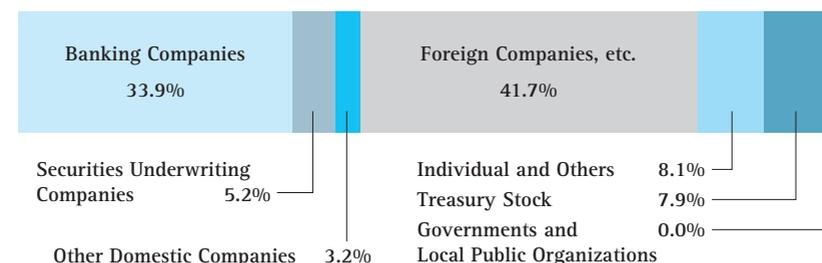

Major Shareholders (Ten shareholders)

Name of Shareholders	Number of Shares Held (thousands of shares)	Shareholding Ratio (%)
The Dai-ichi Life Insurance Company, Limited	74,832	6.1
Japan Trustee Services Bank, Ltd. (Trust Account)	66,685	5.4
The Master Trust Bank of Japan, Ltd. (Trust Account)	60,909	5.0

SSBT OD05 OMNIBUS ACCOUNT - TREATY CLIENTS	21,219	1.7
State Street Bank and Trust Company 505225	18,699	1.5

Notes: 1. Shareholding ratio is calculated by deducting number of treasury shares (105,295 thousand shares) from total shares issued.

2. With respect to The Dai-ichi Life Insurance Company, Limited, in addition to the above, there are 6,180 thousand shares of the Company's stock, in the form of trust property relating to retirement allowance trust.

Shareholding Ratio by Category

3. Share Options of the Company

Share Options Issued as Stock Options

(i) Share Options Held by the Directors and Corporate Auditors of the Company as of the end of this term

Category	Round of issuance	Number of share options (Exercise price per share)	Class and number of shares to be acquired	Exercise period	Number of holders
Directors	1st Share Options	2,390 options (5,502 yen)	Common stock 239,000 shares	May 1, 2010 to April 30, 2014	16 persons
	2nd Share Options	4,000 options (3,287 yen)	Common stock 400,000 shares	May 1, 2011 to April 30, 2015	17 persons
	3rd Share Options	4,200 options (4,573 yen)	Common stock 420,000 shares	May 1, 2012 to April 30, 2016	17 persons
Corporate Auditors	1st Share Options	100 options (5,502 yen)	Common stock 10,000 shares	May 1, 2010 to April 30, 2014	1 person

Note: The share options owned by the Corporate Auditor were granted to him before he assumed the position of Corporate Auditor.

(ii) Share Options Issued to the Employees of the Company during this term

Category	Round of issuance	Number of share options (Exercise price per share)	Class and number of shares to be acquired	Exercise period	Number of holders
Employees of the Company	3rd Share Options	4,700 options (4,573 yen)	Common stock 470,000 shares	May 1, 2012 to April 30, 2016	46 persons

(iii) Issue Price of Share Options

No cash payment is required.

(iv) Other Conditions for Exercise of Share Options

- One (1) share option may not be exercised partially.
- Each holder of share options must continue to be a director, executive officer or employee of the Company until the end of the Company's Ordinary General Meeting of Shareholders regarding the final business term within two (2) years from the end of the Ordinary General Meeting of Shareholders which the issuance of such share options was resolved.
- Holders of share options will be entitled to exercise their share options for two (2) years, and during the exercisable period, even after they lose their positions as directors, executive officers or employees. However, if a holder of share options loses such position due to resignation at his/her initiative, or due to dismissal or discharge by the Company, his/her share options will immediately lose effect.
- No succession by inheritance is authorized for the share options.
- Besides the above, other conditions shall be stipulated in an agreement to be executed between the Company and grantee of share options, based on the resolution of the Board of Directors' meeting.

(3) Outside Directors and Outside Corporate Auditors

Relation Between Important Organization of Concurrent Post and Canon Inc.

Name	Concurrent Post	Organization of Concurrent Post	Relation with Canon Inc.
Tadashi Ohe	Outside Corporate Auditor	Marui Group Co., Ltd.	No special relation
	Outside Corporate Auditor	Kao Corporation	No special relation
Kazunori Watanabe	Outside Corporate Auditor	Canon Electronics Inc.	Subsidiary
Kuniyoshi Kitamura	Outside Corporate Auditor	Canon Marketing Japan Inc.	Subsidiary

Principal Activities

Name	Principal Activities
Tadashi Ohe	Attended 18 out of 21 Board of Directors meetings and 22 out of 23 Board of Corporate Auditors meetings held during this term, and provided expert input as an attorney when necessary.
Kazunori Watanabe	Attended all 16 of the Board of Directors meetings and all 15 of the Board of Corporate Auditors meetings that were held subsequent to March 2010, which was when he assumed his office, and provided expert input as a Certified Public Accountant when necessary.
Kuniyoshi Kitamura	Attended all 16 of the Board of Directors meetings and all 15 of the Board of Corporate Auditors meetings that were held subsequent to March 2010, which was when he assumed his office, and provided input based on his insight in business management when necessary.

Remuneration and Other Amounts Received by Outside Directors and Outside Corporate Auditors from the Company's Subsidiaries

Remuneration and other amounts received during this term by Outside Corporate Auditors from the Company's subsidiaries for their services as Outside Corporate Auditors amounted to 14 million yen.

5. Accounting Auditor

(1) Name of Accounting Auditor

Ernst & Young ShinNihon LLC

(2) Remuneration and Other Amounts to Accounting Auditor for This Term

	Amount
(i) Remuneration and other amounts payable by the Company for the services defined in Paragraph 1, Article 2 of the Certified Public Accountants Act	525 million yen
(ii) Total amount of cash and other financial benefits payable by the Company and its subsidiaries to the Accounting Auditor	986 million yen

Notes: 1. In the audit agreement between the Company and the Accounting Auditor, remuneration amounts are determined on a lump-sum without breakdown into a separate remuneration amount for auditing in accordance with the Corporation Law and in accordance with the Financial Instruments and Exchange Law. Accordingly, the amounts shown in (i) above represent total amounts of remuneration and other amounts for both of these auditing services.
 2. The Company pays remuneration to the Accounting Auditor for their advisory services in addition to the services defined in Paragraph 1, Article 2 of the Certified Public Accountants Act.
 3. Among the Company's principal subsidiaries, Canon U.S.A., Inc. is audited by Ernst & Young LLP and Canon Europa N.V. is audited by Ernst & Young Accountants LLP.

(3) Policy Regarding Decision to Either Dismiss or Not Reappoint Accounting Auditor

The Board of Corporate Auditors, by unanimous agreement, will dismiss the Accounting Auditor when confirmed that the Accounting Auditor falls under any Item of Paragraph 1, Article 340 of the Corporation Law.

In addition to the above, should anything occur to negatively impact the qualifications or independence of the Accounting Auditor, making it unlikely that the Accounting Auditor will be able to properly perform an audit, the Directors will propose, with the agreement of the Board of Corporate Auditors, or as requested by the Board of Corporate Auditors, not to reappoint the Accounting Auditor at a General Meeting of Shareholders.

6. Systems for Ensuring Propriety of Operations

As systems for ensuring the propriety of the Company's operations, the Board of Directors has adopted a resolution as follows:

(1) System for Ensuring the Performance of Duties by Directors and Employees to Comply with Laws and Articles of Incorporation

- (i) Based on the spirit of the "Three Selves" (self-motivation, self-management, and self-awareness)—a Canon universal principle dating back to the Company's founding—the Company established the Canon Group Code of Conduct as a standard to which Directors, Executive Officers and employees must adhere when performing their work. A Committee that manages and oversees this initiative promotes compliance activities to develop law-abiding, independent and strong individuals with a high sense of ethics.
- (ii) Policies and measures set forth by the Committee above are implemented throughout the Company with the assistance of compliance staff assigned to each division.
- (iii) Each division establishes internal rules and guidelines to help ensure that all Directors, Executive Officers and employees thoroughly understand the laws and regulations of Japan and other countries.
- (iv) The Company ensures Directors, Executive Officers and employees the implementation of the basic policy that provides not to have any relation with antisocial forces under any circumstances, and also maintains and improves the cooperation structure with external institutions such as police by establishing a department in charge.
- (v) The Company's internal auditing, legal, and other divisions work to strengthen compliance through law-abidance guidance and monitoring on its business activities.
- (vi) An in-house hotline system is employed to promote internal self-checks to prevent illegal or unethical activities and help prevent improprieties.

(2) System for Maintaining and Managing Information Relating to the Performance of Duties by Directors

- (i) Information relating to the performance of duties by Directors is maintained and managed in accordance with the Company's basic rules for document management addressing the creation, sending and receiving, storage, retention, and destruction of documents, and other in-house rules.
- (ii) A system is established that enables Directors, Corporate Auditors, and internal auditing to access this information anytime.

(3) Rules and Other Systems Regarding Management of Risk of Loss

- (i) Important matters are carefully deliberated at the Executive Committee and in other Management Committees on specific action plans to eliminate or reduce business risks.
- (ii) Business processes are specified and risks are evaluated based on guidelines set forth by a committee that oversees financial risk management to ensure the accuracy and reliability of financial reporting. This must be documented in writing, and the status of control activity is regularly confirmed to make risk management effectively work.
- (iii) A risk management system is created through the formulation and observance of various in-house rules to protect the Company from diversifying risks (quality, environmental, disaster, information-related, export management, etc.) and maintain public faith. In particular, Basic Policies Regarding Product Safety has been established, which govern efforts in supplying customers with safe products that will allow comfortable and satisfactory use.
- (iv) Wide-ranging audits of various types and promotion of the in-house hotline system by internal auditing are carried out for the early detection and resolution of risks.

(4) System for Assuring Directors' Efficient Execution of Duties

- (i) The Executive Committee and Management Committees are established and important matters are carefully deliberated in advance by Directors, Executive Officers and relevant managers to promote prompt and appropriate decision making by Directors.
- (ii) Based on explanation of management policies in long-term management plans, the Company goals are given concrete shape in medium-term plans, and each division is thoroughly informed of the content of these plans. Furthermore, annual and quarterly short-term plans and monthly budgetary control are used to monitor performance progress, through which the Company makes optimum use of management resources.

(5) System for Ensuring Appropriate Operations of the Corporate Group Comprised of Corporation, its Parent Companies and Subsidiaries

- (i) Based on the “Canon Group Code of Conduct,” the Company promotes Groupwide compliance and infuses an awareness of compliance and corporate ethics to share as a set of common values for the Group.
- (ii) Policies and measures set forth by the Committee managing and overseeing the “Canon Group Code of Conduct” are implemented at each Group company by compliance staff assigned to it.
- (iii) The internal auditing, legal, and other divisions enhance compliance by providing guidance and monitoring with regard to the observance of laws in the business activities of all Group companies.
- (iv) The soundness and efficiency of the Group’s business activities are ensured through the formulation of Groupwide medium-term plans and deliberations in the Management Committee.

(6) Matters Regarding Employees Who Assist the Duties of Corporate Auditors When Corporate Auditors Request Assignment of Such Employees

- (i) A division is established specifically to assist Corporate Auditors with their duties.
- (ii) Full-time employees of a requisite number are assigned to the division.

(7) Matters Regarding Independence of the Employees in (6) Above From Directors

- (i) The division is an organization independent of the Board of Directors.
- (ii) Changes in the division’s personnel require the prior consent of the Board of Corporate Auditors.

(8) System for Directors and Employees to Report to Corporate Auditors and System for Other Types of Reporting to Corporate Auditors

- (i) Directors promptly report to Corporate Auditors matters that may have a significant impact on the Company when such matters emerge or are likely to emerge.
- (ii) Directors, Executive Officers and employees deliver reports periodically to Corporate Auditors regarding matters Directors and the Corporate Auditors have previously agreed upon in consultations.
- (iii) Corporate Auditors attend the Executive Committee and other important meetings.
- (iv) An in-house hotline system is adopted to allow Corporate Auditors to receive information from employees.

(9) Other Systems for Securing the Effectiveness of Auditing by Corporate Auditors

- (i) Corporate Auditors periodically receive reports from accounting auditors.
- (ii) The Company establishes the systems for providing cooperation and allowing field audits of internal divisions and affiliates to be performed efficiently by Corporate Auditors.

Notes to Consolidated Financial Statements

<Notes to Basic Significant Matters Regarding Preparation of Consolidated Financial Statements>

Significant Accounting Policies

1. Group Position

The number of consolidated subsidiaries was 294, and the number of affiliated companies accounted for by the equity method was 14.

2. Basis of Presentation

The consolidated financial statements are prepared in accordance with U.S. generally accepted accounting principles ("US GAAP") pursuant to the provision of Section 1, Article 3 of supplementary provision (Act of Justice Ministry No. 46 issued and effective in 2009) of current Company Accounting Regulations. However, certain disclosures required under US GAAP are omitted pursuant to the same provision.

3. Cash Equivalents

All highly liquid investments acquired with an original maturity of three months or less are considered to be cash equivalents.

4. Translation of Foreign Currencies

Assets and liabilities denominated in foreign currencies are translated at the rate of exchange in effect at the balance sheet date. Exchange differences are charged or credited to income. Assets and liabilities of subsidiaries located outside Japan are translated into Japanese yen at the rates of exchange in effect at the balance sheet date and income and expense items are translated at the average exchange rates prevailing during the year. The resulting translation adjustments are reported in other comprehensive income (loss).

5. Inventories

Inventories are stated at the lower of cost or market value. Cost is determined by the average method for domestic inventories and principally the first-in, first-out method for overseas inventories.

6. Investments

Canon accounts for its debt and marketable equity securities as follows. Held-to-maturity securities are recorded at amortized cost, adjusted for the amortization or accretion of premiums or discounts. Available-for-sale securities are recorded at fair value. Unrealized holding gains and losses, net of the related tax effect, on available for-sale securities are excluded from earnings and are reported in other comprehensive income (loss) until realized. Realized gain and losses are determined on the average cost method.

7. Property, Plant and Equipment

Property, plant and equipment are depreciated principally by the declining-balance method.

8. Goodwill and Other Intangible Assets

Goodwill and other intangible assets with indefinite useful lives are not amortized, but are instead tested for impairment at least annually in the fourth quarter of each year, or more frequently if indicators of potential impairment exist. Intangible assets with finite useful lives are amortized over the respective estimated useful lives. Software is amortized on a straight-line basis over the period of three to five years. Customer relationships are amortized principally by the declining-balance method over the period of five years.

9. Impairment of Long-Lived Assets

Long-lived assets, such as property, plant and equipment, and acquired intangibles subject to amortization, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If the carrying amount of the asset exceeds its estimated undiscounted future cash flows, an impairment charge is recognized in the amount by which the carrying amount of the asset exceeds the fair value of the asset.

10. Basis of Recording Allowances

(Allowance for doubtful accounts)

An allowance for doubtful accounts is provided based on credit loss history and an evaluation of any specific doubtful accounts.

(Accrued pension and severance cost)

Pension and severance cost is accrued based on the projected benefit obligations and the fair value of plan assets at the balance sheet date. Unrecognized actuarial loss is recognized by amortizing a portion in excess of a corridor (i.e., 10% of the greater of the projected benefit obligations or the fair value of plan assets) using the straight-line method over the average remaining service period of employees. Unrecognized prior service cost or credit is amortized using the straight-line method over the average remaining service period of employees.

11. Taxes collected from customers and remitted to governmental authorities are excluded from revenues, cost and expenses in consolidated statements of income.

12. Stock-Based Compensation

Canon measures stock-based compensation cost at the grant date, based on the fair value of the award, and recognizes the cost on a straight-line basis over the requisite service period.

13. Net Income Attributable to Canon Inc. Stockholders Per Share

Basic net income attributable to Canon Inc. stockholders per share is computed by dividing net income by the weighted-average number of common shares outstanding during each year. Diluted net income attributable to Canon Inc. stockholders per share includes the effect from potential issuance of common stock based on the assumption that all stock options were exercised.

<Notes to Financial Instruments>

1. Status of Financial Instruments

Canon invests in highly safe and short-term financial instruments.

Canon has certain financial instruments such as trade receivables and securities. Canon reduces the customer credit risk related to trade receivables in accordance with its credit management policy. At December 31, 2010, a major customer accounted for approximately 21% of consolidated trade receivables. Securities consist primarily of equity securities of the companies with which Canon has a business relationship.

Derivative financial instruments are comprised principally of foreign exchange contracts to reduce the risk. Canon does not hold or issue derivative financial instruments for trading and speculative purposes.

2. Fair Value of Financial Instruments

The estimated fair values of Canon's financial instruments as of December 31, 2010 are set forth below. The following summary excludes cash and cash equivalents, trade receivables, finance receivables, noncurrent receivables, short-term loans, trade payables and accrued expenses for which fair values approximate their carrying amounts. The following summary excludes non-marketable equity securities accounted for under the cost method (balance sheet amount 26,475 million yen) as it was not practicable to estimate the fair value of such investments.

	Carrying amount	Estimated fair value	Difference
Available-for-sale securities	27,356	27,356	-
Long-term debt, including current portion	(9,260)	(9,245)	15
Foreign exchange contracts:			
Assets	11,950	11,950	-
Liabilities	(913)	(913)	-

The following methods and assumptions are used to estimate the fair value in the above table.

Available-for-sale securities

Available-for-sale securities are recorded at fair value.

Long-term debt

The fair values of Canon's long-term debt instruments are based on the present value of future cash flows associated with each instrument discounted using current market borrowing rates for similar debt instruments of comparable maturity.

Foreign exchange contracts

The fair values of foreign exchange contracts are measured based on the market price obtained from financial institutions.

Pursuant to Paragraph 4, Article 444 of the Corporation Law, we have audited the consolidated balance sheet, the consolidated statement of income, the consolidated statement of equity and the notes to consolidated financial statements of Canon Inc. (the "Company") applicable to the fiscal year from January 1, 2010 through December 31, 2010. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position and results of operations of the Canon Group, which consisted of the Company and consolidated subsidiaries, applicable to the fiscal year ended December 31, 2010 in conformity with accounting principles generally accepted in the United States under Paragraph 1, Article 3 of supplementary provision of the Company Accounting Regulations (Act of Justice Ministry No. 46 issued and effective in 2009) (refer to Note 2 of notes to basic significant matters regarding preparation of consolidated financial statements in the notes to consolidated financial statements).

We have no interest in the Company which should be disclosed in compliance with the Certified Public Accountants Act.

Audit Report of Board of Corporate Auditors on Consolidated Financial Statements

Audit Report on Consolidated Financial Statements

Regarding the consolidated financial statements (consolidated balance sheet, consolidated statement of income, consolidated statements of equity, and notes to consolidated financial statements) for the 110th business term from January 1, 2010, to December 31, 2010, we have prepared this Audit Report upon deliberation based on the audit reports prepared by each Corporate Auditor and hereby report as follows:

1. Auditing Methods Employed by the Corporate Auditors and Board of Corporate Auditors and Details of Such Methods

We established auditing policies, allocation of duties, and other relevant matters, and received reports from each Corporate Auditor regarding their execution of audits and results thereof, as well as reports from the Directors and the Accounting Auditor regarding performance of their duties, and sought explanations as necessary.

Following the auditing policies and allocation of duties established by the Board of Corporate Auditors, each Corporate Auditor received reports from such as the Directors and employees regarding consolidated financial statements and sought explanations as necessary. Furthermore, we monitored and verified whether the Accounting Auditor maintained their independence and implemented appropriate audits, and received reports from the Accounting Auditor regarding the performance of their duties and sought explanations as necessary. In addition, we received notice from the Accounting Auditor that "System for ensuring that duties are performed properly" (matters set forth in each Item of Article 131 of the Company Accounting Regulations) is organized in accordance with the "Quality Management Standards Regarding Audits" (Business Accounting Council, October 28, 2005) and other relevant standards, and sought explanations as necessary. Based on the above methods, we examined the consolidated financial statements for this business term.

2. Audit Results

We confirm that the methods and results of the audit employed by the Accounting Auditor, Ernst & Young ShinNihon LLC, are proper.

February 15, 2011

Board of Corporate Auditors, Canon Inc.

Corporate Auditor	Keijiro Yamazaki
Corporate Auditor	Shunji Onda
Corporate Auditor	Tadashi Ohe
Corporate Auditor	Kazunori Watanabe
Corporate Auditor	Kuniyoshi Kitamura

Note: Corporate Auditors, Tadashi Ohe, Kazunori Watanabe and Kuniyoshi Kitamura are Outside Corporate Auditors, as provided in Item 16, Article 2, and Paragraph 3, Article 335, of the Corporation Law.

Changes in the term					
Transfer to reserve for special depreciation					83
Reversal of reserve for special depreciation					(853)
Transfer to reserve for deferral of capital gain on property					
Reversal of reserve for deferral of capital gain on property					
Dividends paid					
Net income					
Purchase of treasury stock					
Disposal of treasury stock					
Changes due to share exchange					
Net change of items other than stockholders' equity					
Total changes in the term	-	-	-	-	(770)
Balance as of December 31, 2010	174,762	306,288	-	22,114	796

1. Number of issued shares as of December 31, 2010

1,333,763,464 shares

2. Classes and number of treasury stock

(Shares)

Classes of stock	Balance as of December 31, 2009	Increase	Decrease	Balance as of December 31, 2010
Common stock	99,288,001	16,012,063	10,004,089	105,295,975

(Reason for change)

The increase of 16,012,063 shares reflects the acquisition of 13,151,300 shares as approved by the resolution of the board of directors' meeting, the purchase of 2,840,506 shares based on a dissenting-shareholder request in association with a subsidiary becoming wholly owned by means of a share exchange, and the purchase of 20,257 shares based on the shareholders' request for purchase of shares less-than-one-unit.

The decrease of 10,004,089 shares reflects the share allotment of 10,000,853 shares to shareholders in connection with the aforementioned share exchange and the sale of 3,236 shares based on the shareholders' request for the sale of shares less-than-one-unit.

Notes to Non-Consolidated Financial Statements

<Notes to Significant Accounting Policies>

1. Valuation of Securities

- (1) Securities of subsidiaries and affiliates --- stated at cost based on the moving average method.
- (2) Other securities:
Securities with quotation---- stated at fair value (unrealized holdings gains and losses are reported in net assets, when sold, the cost is based on the moving average method.)
Securities without quotation---- stated at cost based on the moving average method.

2. Valuation of Inventories

- (1) Finished goods; work in process---- valued at cost based on the periodic average method (amount shown in the balance sheet is devaluated due to decline in profitability).
- (2) Raw materials and supplies---- valued at cost based on the moving average method (amount shown in the balance sheet is devaluated due to decline in profitability).

3. Depreciation Method of Fixed Assets

- (1) Property, plant and equipment (excluding lease assets)---- calculated by declining-balance method. For buildings (excluding fixtures) acquired after April 1, 1998, depreciation is calculated by straight-line method.
- (2) Intangible fixed assets---- calculated by straight-line method. With regard to software for sale, calculated based on the estimated marketable period in consideration of marketing plan etc. of the relevant products (3 years), and with regard to internal-use software, calculated based on the estimated useful period in the Company (5 years).
- (3) Lease assets---- calculated by straight-line method. The engaged lease period is determined as the useful life of each lease asset.

4. Deferred Charges---The items which can be deferred under the Corporation Law charged to operations as incurred.

5. Basis of Recording Allowances

- (1) Allowance for doubtful accounts----provided as a general provision for uncollectible receivables
----- General accounts
Allowances are provided using a rate determined by past debt experience.
----- Allowance for accounts considered to be uncollectible and accounts in bankruptcy filing are provided for individual estimated uncollectible amount, primarily determined based on the respective customer's financial conditions.
- (2) Accrued warranty expenses----provides as general provision for product after-sales service expenses and no charge repair cost on an estimated amount based on the historical performance.
- (3) Accrued bonuses for employees----provided as a general provision for bonus to employees for this term based on an amount expected to pay.
- (4) Accrued directors' bonuses----provided as general provision for bonus to directors for this term based on an amount expected to pay.
- (5) Accrued pension and severance cost----provided as general provision for employee retirement and severance benefits based on projected benefits obligation and expected plan asset. Prior service cost and actuarial variance are amortized by straight-line method with average remaining service periods.
- (6) Accrued directors' retirement benefits----provision for directors' retirement benefits based on the necessary amount at the fiscal year-end in accordance with management policy.
- (7) Reserve for environmental provision----provided as general provision for the future environmental-related cost, such as construction costs to prevent the proliferation of soil pollution, and also clean up costs of hazardous substances based on the related regulations.
- (8) Accrued long service rewards for employees----provided as general provision for reward for employees in accordance with management policy for long service employees for this term based on an amount expected to pay.

6. Hedge accounting

- (1) Hedge accounting---deferral hedge accounting has been applied.
- (2) Hedging instrument and hedged assets / liabilities
Hedging instrument----derivative transaction (foreign exchange contract)
Hedged assets / liabilities----accounts receivables denominated in foreign currency for forecasted transaction.

- (3) Hedge policy----derivative financial instruments are comprised principally of foreign exchange contracts to manage currency risk. The Company does not hold derivative financial instrument for trading purpose.
- (4) Assessment of hedge effectiveness----foreign exchange forward contracts due to the same currency of the same underlying at the same period are concluded to cover foreign currency fluctuation risk in the market based on the hedging policy, and thus is effective.

7. Consumption Taxes----excluded from the statements of income and are accumulated in other receivables or other payables.

<Note to Deferred Income Tax>

1. Significant components of deferred tax assets

Accrued pension and severance cost	25,241	million yen
Loss on devaluation of investments in subsidiaries	16,644	million yen
Loss on disposal and write-off of inventories	9,525	million yen
Outstanding enterprise tax	4,389	million yen
Depreciation of fixed assets in excess of limit	5,848	million yen
Loss on impairment of fixed assets	6,472	million yen
Excess in amortization of software	12,999	million yen
Amortization of deferred charges in excess of limit	9,142	million yen
Other	21,968	million yen
Subtotal deferred tax assets	112,228	million yen
Valuation reserve	(17,861)	million yen
Total deferred tax assets	94,367	million yen

2. Significant components of deferred tax liabilities

Reserve for special depreciation	(531)	million yen
Reserve for deferral of capital gain on property	(1,942)	million yen
Other	(1,657)	million yen
Total deferred tax liabilities	(4,130)	million yen
Net deferred tax assets	90,237	million yen

<Notes to Transaction with Related Parties>

Pursuant to Item 1, Paragraph 2 of Article 436 of the Corporation Law, we have audited the non-consolidated balance sheet, the non-consolidated statement of income, the non-consolidated statement of changes in net assets, the notes to non-consolidated financial statements and the related supplementary schedules of Canon Inc. (the "Company") applicable to the 110th fiscal year from January 1, 2010 through December 31, 2010. These non-consolidated financial statements and the related supplementary schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on these non-consolidated financial statements and the related supplementary schedules based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the non-consolidated financial statements and the related supplementary schedules are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the non-consolidated financial statements and the related supplementary schedules. An audit also includes assessing the

accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the non-consolidated financial statements and the related supplementary schedules. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the non-consolidated financial statements and the related supplementary schedules referred to above present fairly, in all material respects, the financial position and results of operations of Canon Inc. applicable to the 110th fiscal year ended December 31, 2010 in conformity with accounting principles generally accepted in Japan.

We have no interest in the Company which should be disclosed in compliance with the Certified Public Accountants Act.

Audit Report

Regarding the performance of duties by the Directors for the 110th business term from January 1, 2010, to December 31, 2010, we have prepared this Audit Report upon deliberation based on the audit reports prepared by each Corporate Auditor and hereby report as follows:

1. Auditing Methods Employed by the Corporate Auditors and Board of Corporate Auditors and Details of Such Methods

We established auditing policies, allocation of duties and other relevant matters, and received reports from each Corporate Auditor regarding their execution of audits and results thereof, as well as reports from the Directors, other relevant personnel, and the Accounting Auditor regarding performance of their duties, and sought explanations as necessary.

Each Corporate Auditor complied with the auditing standards of Corporate Auditors established by the Board of Corporate Auditors, followed the auditing policies, allocation of duties, and other relevant matters, communicated with such as the Directors, the internal auditing and other employees, and made efforts to establish the environment for collecting information and auditing, and participated in the meetings of the Board of Directors and other important meetings, received reports from such as the Directors and employees regarding performance of their duties, sought explanations as necessary, examined important authorized documents and associated information, and studied the operations and status of assets at the head office and principal offices. In addition, we monitored and verified the system for ensuring that the performance of duties by the Directors conforms to the related laws and regulations and Articles of Incorporation, as well as the resolution of the Board of Directors regarding the organization of the system stipulated in Item 1 and Item 3, Article 100, of the Enforcement Regulations of the Corporation Law and the status of the system based on such resolution (Internal Control System), which are necessary for ensuring propriety of company's operations. With respect to subsidiaries, we communicated and exchanged information with Directors and Corporate Auditors of subsidiaries, and received business reports from subsidiaries as necessary. Based on the above methods, we examined the business report and the accompanying detailed statements for this business term.

Furthermore, we monitored and verified whether the Accounting Auditor maintained their independence and implemented appropriate audits, and we received reports from the Accounting Auditor regarding the performance of their duties and sought explanations as necessary. In addition, we received notice from

the Accounting Auditor that "System for ensuring that duties are performed properly" (matters set forth in each item of Article 131 of the Company Accounting Regulations) is organized in accordance with the "Quality Management Standards Regarding Audits" (Business Accounting Council, October 28, 2005) and other relevant standards, and sought explanations as necessary. Based on the above methods, we examined the non-consolidated financial statements (non-consolidated balance sheet, non-consolidated statement of income, non-consolidated statements of changes in net assets, and notes to non-consolidated financial statements) and the accompanying detailed statements for this business term.

2. Audit Results

(1) Results of Audit of Business Report and Other Relevant Documents

1. We confirm that the business report and the accompanying detailed statements fairly represent the Company's conditions in accordance with the related laws and regulations and Articles of Incorporation.
2. We have found no significant evidence of wrongful act or violation of related laws and regulations, nor the Articles of Incorporation with regard to the performance of duties by the Directors.
3. We confirm that the content of the resolution of the Board of Directors regarding the Internal Control System is proper. In addition, we have found no matters on which to remark in regard to the performance of duties by the Directors regarding the Internal Control System.

(2) Results of Audit of non-consolidated financial statements and the accompanying detailed statements

We confirm that the methods and results of the audit employed by the Accounting Auditor, Ernst & Young ShinNihon LLC, are proper.

February 15, 2011
